## NATIONAL ENERGY AWARDS 2025: PETRA CALLS FOR PARTICIPATION TO SHOWCASE LOCAL CAPABILITIES AND EXPERTISE IN SUSTAINABLE ENERGY

**PUTRAJAYA, 17<sup>th</sup> November 2024**-The Ministry of Energy Transition and Water Transformation (PETRA) invites industry players and qualified entities to participate in the latest edition of National Energy Awards (NEA). Now, in its fifth year, the NEA will be open for submission from 18 November 2024 until 19 February 2025.

Organised by PETRA through Malaysia Green Technology & Climate Change Corporation (MGTC) as the secretariat, the NEA aims to recognise the achievements and best practices of sustainable energy industry players in Malaysia, focusing on the adoption of renewable energy (RE) technologies and energy efficiency practices. Since its inception in 2018, the NEA has attracted the participation of 1,147 industry players and qualified entities, with 169 winners of NEA were chosen to represent the nation at the ASEAN Energy Awards (AEA).

As Malaysia assume the chairmanship of ASEAN next year, PETRA would like to showcase Malaysia's capabilities and standard of excellence in AEA 2025, with next year's award ceremony set to take place in Kuala Lumpur. To support this, PETRA would like to call upon industry players and qualified entities that have implemented renewable energy (RE) technologies or adopted energy efficiency practices to put forth their submission for the 2025 NEA, under the following four distinct categories:

- a. Category 1: Energy Management
- b. Category 2: Energy Efficient Building
- c. Category 3: Renewable Energy; and
- d. Category 4: Special Awards

PETRA is confident that NEA will serve as an ideal platform for participants to showcase their best practices in energy efficiency and renewable energy. NEA will also highlight the local industry's capabilities in delivering innovative solutions to optimise energy supply and promote sustainable energy use.

Please visit <https://www.nationalenergyawards.com.my> for more information about NEA 2025.
