MALAYSIA CHAMPIONS ENERGY TRANSITION, WATER TRANSFORMATION, SUSTAINABILITY AND CLIMATE ACTION AT EXPO 2025 OSAKA

OSAKA, JAPAN, 9 September 2025 – Malaysia takes centre stage at Expo 2025 Osaka as the Ministry of Energy Transition and Water Transformation (PETRA) and the Ministry of Natural Resources and Environmental Sustainability (NRES) host the highly anticipated Week 22 programme at the Malaysia Pavilion, held from 8 to 14 September 2025.

With the theme “Energising Sustainability, Aspiring Lives”, the week underscores Malaysia’s bold commitment to sustainability, innovation, and inclusive progress, while fostering global collaborations in energy transition, water transformation, and climate action.

The Secretary General of PETRA, Dato' Haji Mad Zaidi Mohd Karli, officiates the opening ceremony, which underscores Malaysia’s vision of advancing economic growth in harmony with environmental stewardship. Two (2) flagship Business Forums anchor the week’s programme:

- **Energy Transition & Water Transformation Forum** – bringing together policymakers, industry leaders, and global experts to reaffirm Malaysia’s commitment to a sustainable energy future. Discussions focus on policy alignment, innovation, and investment to drive a just and inclusive energy transition, while advancing a strategic vision to transform the water sector through digitalisation and integrated resource management.
- **Green Technology & Climate Change Forum** – offering a platform for practical dialogue on climate resilience and sustainable solutions. Key discussions focus on carbon markets and the role of

businesses in advancing the sustainability agenda, while showcasing Malaysia's homegrown innovators alongside leading industry players championing green innovation at national and international levels.

Together, these forums reinforce Malaysia's strong aspiration to achieve the Net Zero emission target by 2050, while positioning the nation as a regional leader in energy transition, water transformation, and climate action.

Malaysia's participation will generate trade and investment opportunities driven by the participation of Malaysian companies in the energy, water, and green technology sectors. Companies participating include Tenaga Nasional Berhad (TNB), Petroliaam Nasional Berhad (PETRONAS), Malakoff, UEM Lestra, Air Selangor, Ranhill SAJ, Concorde Renewable Energy, Thursinar Energy, Pumar Solar Power, FatHopes Energy, Global Tunikara, Nextgreen Global, Gaia Greentech, Heng Hiap Industries, and Cube Global.

In addition, Week 22 sees the signing of several Memoranda of Understanding and Cooperation, marking significant milestones in strengthening partnerships and accelerating collective progress towards shared sustainability objectives.

As the implementing agency, the Malaysian Green Technology and Climate Change Corporation (MGTC) curated initiatives throughout the week to highlight national achievements in sustainable development. In this regard, MGTC collaborated with both ministries, key agencies, and stakeholders, namely the Sustainable Energy Development Authority (SEDA), National Water Services Commission (SPAN), Energy Commission (ST), Indah Water Consortium (IWK), Pengurusan Aset Air Berhad (PAAB), and National Water Research Institute of Malaysia (NAHRIM).
